To The Board of Directors
Essex County Industrial Development Agency, Inc.
PO Box 217
7566 Court Street
Westport, NY 12932

In the planning and performing my audit of the financial statements of Essex County Industrial Development Agency, Inc. as of December 31, 2011 and for the year then ended, in accordance with auditing standards generally accepted in the United States of America, I considered Essex County Industrial Development Agency, Inc.'s internal control over financial reporting (internal control) as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, I do not express an opinion on the effectiveness of the Organization's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

My consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all such deficiencies have been identified. I did not identify any deficiencies in internal control that I consider to be material weaknesses.

This communication is intended solely for the information and use of management, the board of directors, and others within the organization, and is not intended to be and should not be used by anyone other than these specified parties.
